Career Objective :-

Motivated **BCA graduate**, currently pursuing **MCA**, with hands-on practical knowledge in **Cloud Computing, AWS, and DevOps automation**. Skilled in **CI/CD pipelines, cloud deployment, configuration management, and server management**. Seeking an opportunity to **apply and enhance DevOps and cloud skills** while contributing to **scalable and efficient system solutions**

Technical Skills :-

- **Programming:** C, HTML
 - **Database:** MySQL, MongoDB, DynamoDB
 - **Cloud Platform:** Amazon Web Services (EC2, S3, RDS, VPC, IAM, CloudWatch, Auto Scaling, Load Balancer, Route 53, Lambda, SNS, SQS)
 - **DevOps:** Jenkins, Git, GitHub, Terraform, Docker, Docker Compose, Ansible, Kubernetes
 - **Web/OS:** Nginx, Apache, Ubuntu, Linux
-

Project :-

1. Node.js CI/CD Pipeline using Jenkins & AWS EC2 :-

- Automated Node.js deployment using **Jenkins** CI/CD pipeline.
- Deployed application on **AWS EC2 (Ubuntu)** via SSH automation.
- Managed Node.js processes and restarts using **PM2**.
- Integrated GitHub with Jenkins for continuous deployment.

2. AWS Scalable Web Infrastructure using Terraform :-

- Automated AWS infrastructure provisioning using **Terraform** following Infrastructure as Code practices.
- Created and managed **AWS** resources including VPC, subnets, EC2, and security groups.
- Implemented secure networking with public/private subnets and controlled access rules.
- Enabled scalable and reusable infrastructure using modular Terraform configurations

3. Docker-Based 3-Tier Web Application :-

- Designed and deployed a **3-Tier Web Application** using Docker & Docker Compose.
 - Implemented **Nginx** as Web Tier to serve frontend and forward requests to backend.
 - Configured **PHP-FPM** as Application Tier to handle form processing and business logic.
 - Integrated **MySQL** as Database Tier for persistent data storage.
-

Education :-

- **Bachelor of Computer Application (BCA)**
Savitribai Phule Pune University

Aug 2022 – May 2025

Certifications & Training :-

- MCA (Master's) in Cloud Architecture
- 6-Month DevOps Internship – Cravita Technologies
